
A leader is a dealer in hope. __Napoloen Bonaparte

Good day Ladies and Gentlemen, my name is Datti Aisha Aliyu, I am a 300-level student of law under the remarkable Bola Ajibola College of Law, Crescent University, Abeokuta. I am currently a legislative representative for constituency 3.

For one, I have had experience with the Parliamentary House, I have seen the executive from the point of the watchdog making it possible to see their flaws and suggest possible areas for reform whilst also chipping in the best medium of implementation. I have interest in writing, thus having my first poem collection published on Amazon, I also have a diploma in French and I have also participated in the French international exam. All these seemingly points to my zeal to take on challenges and execute them efficiently. Of course, I do have a pretty decent social life. I enjoy travelling, gardening and playing scrabble.

If elected as Vice president I would aim to:

- I would facilitate and push the administration into holding series of event that students would be involved in.
- I would also see that students get enough tutorship spread across all levels. I will also encourage interested students to participate in other inter school activities.
- During my administration, I would also push for the introduction of the “Lawsan Café”. Where coffee and pastries would be sold from 8am to 12pm for those early morning classes, to have a place to relax, read and reflect.
- I want to also ensure utmost participation in the school societies and ensure each of them carry out their responsibilities thoroughly.
- I would welcome any idea by anyone without bias.
- I would carry the legislative along when making decisions, since they represent each constituency and welcome any corrections from the judiciary and carry them along as well.

Why I believe I came capable with these responsibility and why vote for me?

I genuinely believe in the saying “you can’t give up without a fight” and I am willing to fight with every straw to ensure I check everything on the list. I also believe in being persistent, I will be persistent with each goal I put forward to make Lawson and the students in it great and make each of your rights noticed.

Vote for Datti Aisha. Vote for the fight of your right.
